Subject: Whipping Rule

Details: All you have to do is go the 'Fines and Suspensions' and see how many whipping rule infractions there are. Something has to be done and I am very glad that the Commission is taking this seriously. When you are at the track at the finish - its sinful how the horses are shipped when they are trying their guts outs.

In England, mind you its TB's but you are only allowed to whip so many times. The same can be applied to Standardbreds. Thank you for giving me this opportunity for my input
